

Bulletin on Copyright Transfer

The Mathematical Society of Japan (MSJ) would like to request authors to transfer their copyrights in the journals below to MSJ in order to meet the demand for electronic access to mathematical literature.

Journal of the Mathematical Society of Japan, Vol. 1 (1948) – Vol. 57 (2005)

Japanese Journal of Mathematics, New series, Vol. 1 (1975) – Vol.31 (2005)

The copyright includes the right of reproduction and the right of public transmission. We would like the authors to agree to the following three items:

1. MSJ has the right to reproduce and publicly transmit relevant journals or articles for academic purposes.
2. MSJ has the right to authorize a third party to exercise the right described in item no. 1.
3. In the event that MSJ earns profits from exercising the rights described in item no. 1 and 2, MSJ will use it to cover MSJ operating expenses.

Regarding the copyright transfer, we will send a letter with a copyright transfer form to each author whose article has been published in 1998 or later, requesting to transfer the copyright to MSJ. Your prompt, signed reply will be highly appreciated.

As for articles published before 1998, we understand that the copyright will automatically be transferred from the authors to MSJ unless objections are

made after this official announcement on the copyright transfer has been delivered or put on our Web site.

If you have questions or objections about copyright transfer, let us know no later than November 30th, 2005, by sending a postal mail to the MSJ office or an e-mail to the address below.

copyright@math.or.jp

We hope all authors concerned take notice of this information before the due date. In case some of the authors do not become aware of the announcement before November 30th for some reason, we are open for receiving questions or objections even after the due date.

If no objections have reached us by November 30th, we would deem our request accepted and proceed with publishing articles on the Web.
